QUEEN GREEN™ LENTIL

AGT Foods is proud to offer the Queen Green™ Lentil, the first true green cotyledon lentil in the world. Developed through the Crop Development Centre at the University of Saskatchewan, the Queen Green is the brightest and greenest lentil ever marketed.

Available exclusively from AGT Foods through its Saskcan brand, the Queen Green Lentil is a rare gem in the global pulse industry, offering a rich emerald green colour on its outer skin and a vibrant, green colour on the inside. The Queen Green will offer a new conduit for caterers, chefs and premium food packers who are looking for fresh products and standout ingredients to make their products unique from the rest.

THE
BRIGHTEST
LENTIL IN THE
WORLD

The Queen Green Lentil is offered in whole and Sortex split quality and is packaged in a premium quality 25 kilogram laminated polypropylene bag. All aspects of the Queen Green Lentil say premium quality.

The Queen Green Lentil is offered exclusively by AGT Food and Ingredients Inc. (AGT), a processor of value-added pulses, staple foods and ingredients for export and domestic markets as well as a supplier of retail packaged and canned foods to retail and food service sectors. Through its offices and processing facilities located in some of the best agricultural growing regions in Canada, the U.S., Turkey, China, Australia and South Africa, merchandising and sales offices in the U.K., the Netherlands, Spain, Switzerland and India and origination offices in Russia, AGT produces a full range of pulses and specialty crops including lentils, peas, chickpeas, beans and canary seed as well as food ingredients such as pulse flours, proteins, starches and fibres. Through its subsidiaries in Turkey, the Arbel Group, AGT also produces staple foods such as Arbella Pasta, rice, and milled wheat products, including bulgur and semolina.
